

Sawnee EMC Production Equipment Rebate

Summary:

A Sawnee EMC member, billed under a commercial rate schedule, can apply for a rebate for upgrading a piece of production equipment at their facility. The upgraded equipment must meet the requirements listed below. If these requirements are met the commercial member will be eligible for a rebate credit of ½ of the total cost of the replacement up to a maximum of \$1000.00. The rebate will be applied as a credit on the next monthly bill following verification of the installation. Please read the following requirements:

Requirements

- The upgraded equipment must be replacing a working piece of equipment. The rebate does not apply to replacement of no longer working equipment.
- The total cost estimate of the replacement must be submitted with this application. A return on investment (ROI) based solely on kilowatt hour (kWh) savings will be calculated based on kWh history for the account. Reasonable payback periods will be considered.
- Complete the application form, then mail, fax, or e-mail it to Sawnee EMC, attn: Commercial Rebates, 543 Atlanta Hwy Cumming, GA 30040. Fax number: 678-513-8106
E-mail: marketing@sawnee.com
- The application will be reviewed and you will be contacted to set up an initial meeting with the Commercial Marketing Representative to verify existing conditions.
- All work can be completed after existing conditions are verified and the proposed changes are approved.
- Contact the Marketing Representative for the final inspection after all work is completed.
- After the final inspection is complete and the changes are verified to reduce monthly kilowatt consumption for the applicant, credit will be applied to the member's account in the amount of ½ of total cost up to \$1000 maximum. Copies of final receipts or invoices for the upgrade must be available at the time of the final inspection.

Small Commercial and Industrial Efficiency Rebate Application

Rebate Summary:

When recommended by a Sawnee EMC Marketing Representative, a member can receive a one time energy grant to assist in the upgrading of an older, working, piece of production equipment to a more energy efficient model, provided that the upgrade results in a measurable reduction of kilowatt usage for the member.

Directions:

Please complete your account information and all data on both existing equipment and proposed changes. Please include documentation showing the proposed cost of the equipment. E-mail or fax completed form to the Marketing Department at Sawnee EMC at: marketing@sawnee.com or fax number 678-513-8106.
